We trust you have received the usual lecture from the local System
Administrator. It usually boils down to these three things:

    #1) Respect the privacy of others.
    #2) Think before you type.
    #3) With great power comes great responsibility.

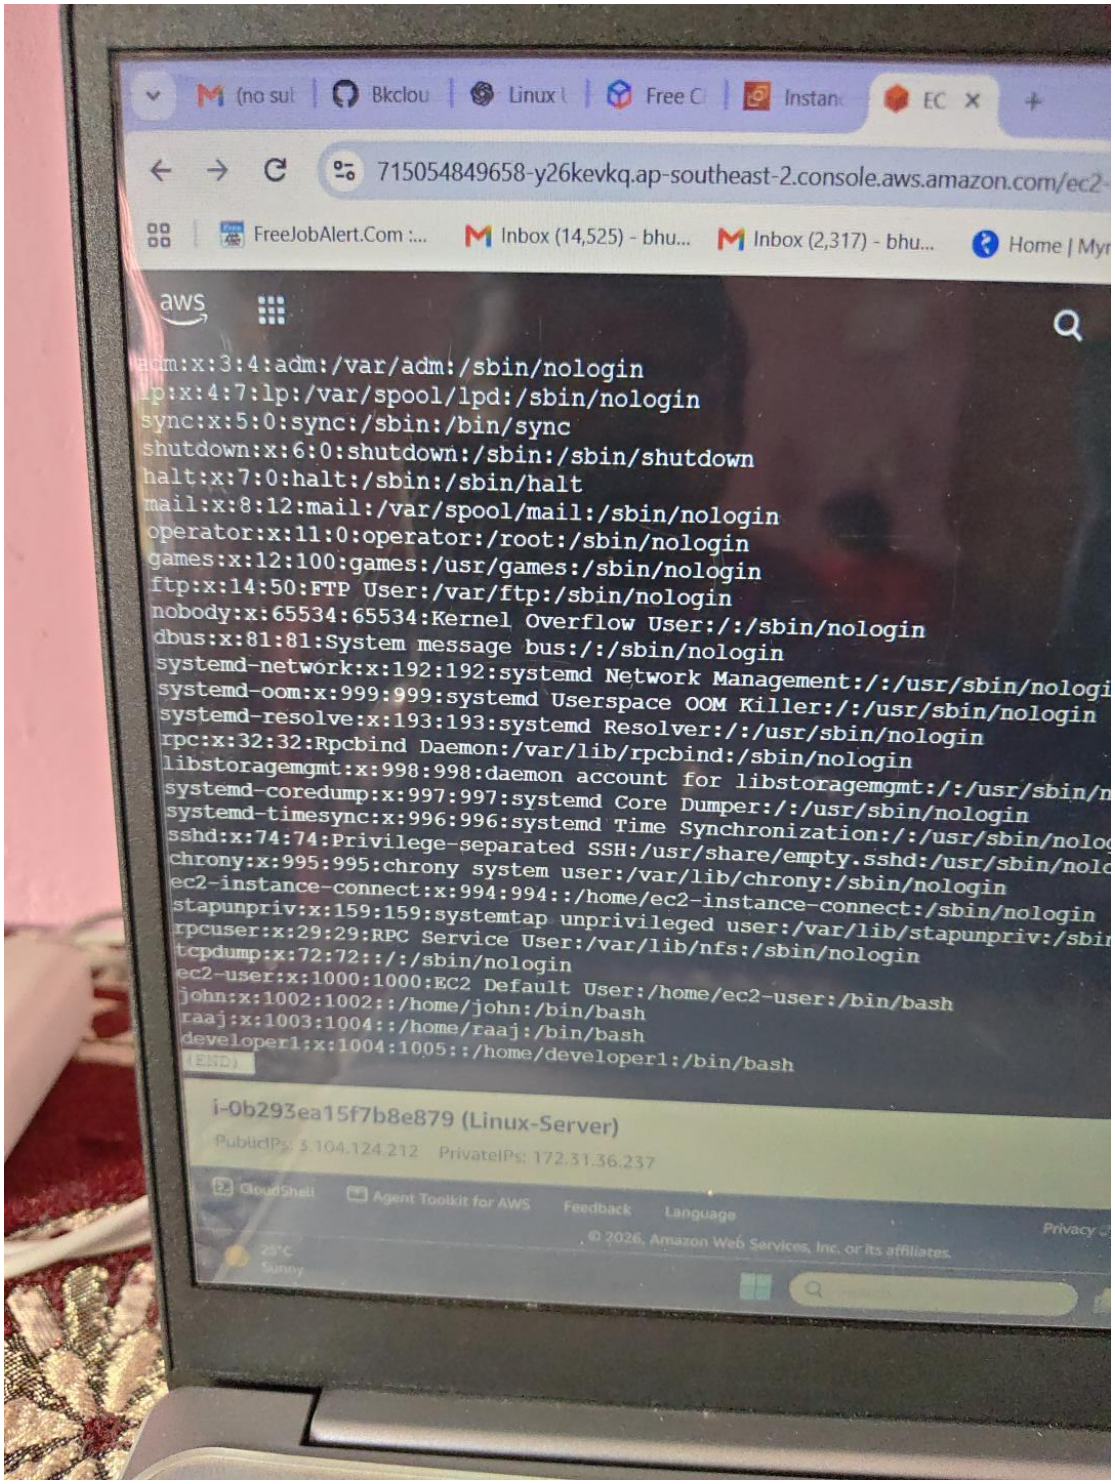

For security reasons, the password you type will not be visible.

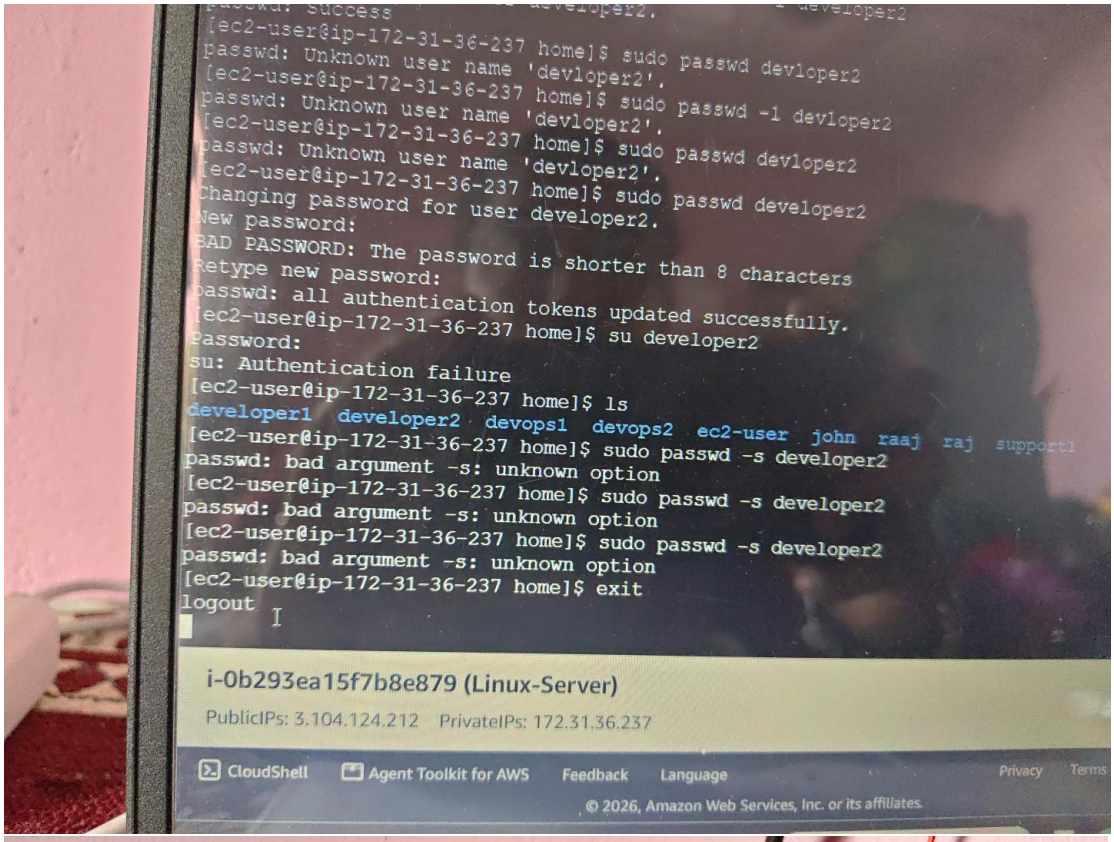

[sudo] password for developer2:
developer2 is not in the sudoers file.
[developer2@ip-172-31-36-237 ec2-user]$ sudo userdel developer2
[sudo] password for developer2:
developer2 is not in the sudoers file.
[developer2@ip-172-31-36-237 ec2-user]$ exit
exit
[ec2-user@ip-172-31-36-237 ~]$ sudo userdel developer2

[ec2-user@ip-172-31-36-237 ~]$ sudo passwd -u developer2
Unlocking password for user developer2.
passwd: Success
[ec2-user@ip-172-31-36-237 ~]$ su developer2
Password:
[developer2@ip-172-31-36-237 ec2-user]$ sudo chage -l developer2
We trust you have received the usual lecture from the local System
Administrator. It usually boils down to these three things:
#1) Respect the privacy of others.
#2) Think before you type.
#3) With great power comes great responsibility.
For security reasons, the password you type will not be visible.
[sudo] password for developer2:
developer2 is not in the sudoers file.
[developer2@ip-172-31-36-237 ec2-user]$ sudo userdel developer2
[sudo] password for developer2:
developer2 is not in the sudoers file.
[developer2@ip-172-31-36-237 ec2-user]$ exit
exit
